

# Over 380,000 Idled By Meat Packers', Soft Coal Strikes

(By The Associated Press)  
Many of the nation's meat packing plants and soft coal mines were made idle today by walkouts in these two major industries. More than 380,000 workers were on the sidelines. The CIO United Packinghouse Workers union called out its 100,000 members from meat packing plants across the nation at 12:01 a. m. The union rejected a presidential request that it delay the strike.

In the coal industry, 280,000 workers—70 per cent of the nation's soft coal miners, left their jobs in a walkout which threatened to engulf most of the industry.

The packinghouse strike, which affects about 140 plants, is expected to cut the nation's meat supply in half.

## Ignore Truman Plea

It was ordered last night by the union's executive committee despite a telegram from President Truman asking an 80-day delay while a special board of inquiry investigated the dispute.

The strike is in support of demands for a wage increase of 20 cents an hour. The packers have offered a nine-cent-an-hour raise.

The miners' walkout backed up demands of John L. Lewis for \$100 monthly pensions. It affected 200,750 miners in 12 states.

U. S. mediation officials in Washington hastily explored means of stopping the walkout. The strongest possibility seemed that the government would try to mediate as long as there seemed hope of a solution. Lewis' contract, signed last July 8, provided only that miners should work as long as they were "able and willing."

# BLOOD DONOR SERVICE TO BE SET UP HERE

A new step toward re-establishment of the Red Cross Blood Donor service in Adams county is scheduled to take place April 8 when Miss Clara Preston, Red Cross field representative will meet with the local group here.

On that date the members of the Blood Donor committee and the executive committee of the county Red Cross have been asked to meet with Miss Preston to make arrangements for setting up a new list of blood donors and will learn what preparations will be needed to establish the service locally.

During World War II, the county was one of a number of Red Cross blood donor sections, with contingents giving blood on one day each month at a center set up in Christ Lutheran church. The service was stopped after the war but last year the Red Cross voted to re-establish the service in order to supply blood and plasma products to hospitals free of charge.

It is expected that a center will be set up near here, possibly at Harrisburg, from which mobile units will be sent once each month to various communities to gather donated blood.

Just how soon the service will be established here is not known, but locally it is thought that it may be in operation here within a year.

# LEMUEL GRIMES IS FOUND DEAD NEAR KNOXLYN

Lemuel Grimes, 75, of Gettysburg R. 2, was found dead in bed at his home in Highland township near Knoxlyn at 7 o'clock Monday night. Dr. C. G. Crist, coroner, was called, and pronounced death due to a cerebral hemorrhage. He said the man had apparently been dead since Saturday.

A neighbor, Howard Knouse, discovered the body when he went to Grimes' home after not seeing the man around for several days. With Knouse were Harry Trostle, Jr., and Jack French, who also live in the neighborhood.

Mr. Knouse gained entrance to the house through a window, and found Grimes lying on the bed. He telephoned Dr. Crist, who in turn notified the state police of the Gettysburg sub-station. The body was removed to the Bender funeral home.

State police said Grimes had not been seen since last Tuesday.

He was the son of the late Joseph and Susanne Shaffer Grimes, and leaves one son, Daniel Grimes, Akron, O., a brother, Joseph Grimes, Carlisle, R. D., and a sister, Mrs. Scott Nail, Cumberland, Md.

Funeral services Thursday afternoon at 2 o'clock at the Bender funeral home with interment in Mountview cemetery at Emmitsburg with the Rev. Harold Myers, Gettysburg, officiating. Friends may call Wednesday evening from 7 to 9 o'clock at the funeral home.

## TRACTOR FOR LADDER TRUCK IS PURCHASED

The Gettysburg Fire department's aerial ladder truck, purchased last year from the Wilmington, Del. fire department for \$1,800, is expected to be in service by the end of this week, fire department officials said today, following the purchase, at a meeting of the special truck committee Monday night of a new tractor for the vehicle.

The committee met last Saturday with representatives of several firms which make truck-tractors, and received prices from Ford, Chevrolet, International, Dodge, Studebaker and GMC. At a meeting of the committee in the engine house Monday night, the firemen discussed prices and specifications, and decided on the purchase of a GMC tractor. The order was given to the Glenn L. Bream company.

### To Be Painted Red

The tractor purchased is a two-and-a-half-ton outfit, and is now in Gettysburg. It will immediately be painted red to conform to the other fire department vehicles and the ladder part of the truck, and the turntable.

The special truck committee was given authority by the fire department some time ago to make the purchase. The borough council, fire department officials said, will pay \$2,000 toward the cost of the new tractor. The fire company will pay the balance, including the cost of painting and conversion. A nozzle will also be purchased to be attached to the top of the aerial ladder.

The new tractor replaces the one which came with the truck from Wilmington, which had been in service for 22 years in that city. Re-painting of the ladders, and ladder truck part of the vehicle has been completed by Gene Sickles.

### Cut Insurance Rates

Fire Chief James A. Aumen said he had received assurances from fire insurance representatives that fire insurance rates will be reduced in Gettysburg when the new aerial truck is placed in service.

The department will have five trucks, three pumpers, ladder truck, and a service truck.

## BAD WEATHER DELAYS WORK ON FAIRFIELD ROAD

Work on the new concrete and steel bridge over Marsh creek on the Fairfield road is nearing completion, but weather is holding up completion of the approaches on either side, Hempt Brothers Construction company, Camp Hill, Pa., said today.

The bridge itself has been completed, and the construction company is now placing the parapets. Grading has been completed on both sides of the bridge, and rock fill has been placed on the Fairfield approach to the bridge.

The excavating work has been completed through the rock cut on the Gettysburg side, but the surfacing of the approaches is being held up until the ground dries out sufficiently through this cut.

### Opening Date Unknown

Both immediate approaches to the new bridge and the new roadway southwest of the bridge are ready for surfacing, the firm said.

A spokesman for the firm said he could give no indication as to when the work would be completed and the road opened to traffic again.

The new bridge replaces the historic old "camel-back" stone arch bridge built in 1810 at a cost of \$2,500. The old bridge has been removed.

Contract for the new bridge and 1.7 miles of approaches on either side was awarded by the state highway department last July to the Camp Hill firm at its bid of \$238,156.45.

## Moose To Nominate Thursday Evening

The annual report of the nominating committee will be presented Thursday evening at the regular meeting of the Gettysburg Moose lodge, Secretary Charles L. Lauer announced today. Election of officers will be held April 1.

The club plans to reopen its ballroom Wednesday evening with a St. Patrick's Day dance with music by Don Peeble's orchestra. The room was closed for the past two weeks to permit repainting and refurbishing of the room. Thursday, March 25, an oyster supper will be held for the members.

### FILES BUSINESS NAME

Edgar H. Wisensal, 12 Cemetery street, Littlestown, has filed papers with the county prothonotary as operator of a business under the fictitious name of Littlestown Dry Cleaners, located at 201 South Queen street, Littlestown.

## Dr. Elgin Withdraws From GOP Contest

Dr. Eugene Elgin, East Berlin, withdrew his petition at Harrisburg Monday as a candidate for Republican state committee member from Adams county, leaving two candidates in the running. Monday was the last day for withdrawals.

Dr. Elgin, who has formerly held the post of state committee member from this county, said he had decided he would not engage in a primary contest for the position.

Other candidates are the incumbent, Frank J. Slonaker, who seeks re-election, and Clarence C. Smith, chief clerk to the Adams county commissioners. The drawing for ballot positions takes place at Harrisburg Wednesday morning.

## R.C. SERVICES 'PAY OFF' THRU GIFTS TO DRIVE

Contributions to the Adams County Red Cross fund drive reached \$1,542.75 today as solicitors throughout the county continued their house to house campaign by which they hope to raise \$14,820 by the end of the month.

Among the donations was a \$10 check from a former Gettysburg resident who wrote: "I did not get to see the collector on West Middle street when I was home. I wanted to give my donation in Gettysburg this year because you got my son home in time to see my mother before she died."

While busy with the drive, the Red Cross continued with its usual activities and succeeded in bringing to a successful conclusion a mother's search for word of her son who died overseas during World War II.

### Give Mother Report

The mother, who lives in Asheville, N. C., asked the aid of the Red Cross there to find out if she could get in touch with anyone in Gettysburg to learn something of her son during the three years he spent here. From 1939 to 1942 he was employed at the Delecto here, then the son, James Calloway, who lived on North Washington street, went into the service.

The Red Cross asked The Gettysburg Times to publish an item asking any friends of Calloway's here to get in touch with the local office. A number of persons who knew him responded and today a lengthy letter written by the county Red Cross office from the information given by his friends here, along with a picture taken of him while here, is on its way to the bereaved mother.

Among the donations made during the past several days to the drive was \$25 from the First National bank of Gettysburg, \$10 from the Gettysburg chapter of the Order of Eastern Star; \$5 from the Centennial fire company, \$43 from the business district; \$29.50 from the Second ward; \$53.50 from District Two, Franklin township; \$27 from First ward, first precinct; \$19.50 from First ward, second precinct, and \$26 from District Nine, Gettysburg R. D. The sums listed from the various districts, wards and precincts are in addition to previously reported donations.

## SPEEDER FACING 205 DAYS IN JAIL

A Waynesboro automobile salesman, arrested after a chase at speeds which reached 90 miles an hour, was fined \$205 and costs by Magistrate Jacob Baker in Emmitsburg Saturday night and was committed to jail in default.

The defendant, Joseph W. Emmert, pleaded guilty to charges of exceeding 70 miles an hour, turning off lights to avoid identification and having no operator's license, preferred by State Trooper Kenneth Bond.

Magistrate Baker fined Emmert \$150 and costs on the speeding charge, \$50 and costs on the charge of turning off lights and \$5 and costs on the no operator's license warrant. Unless the fine and costs are paid, Emmert must serve 205 days in jail.

Gilmore Needy, Smithsburg, was arrested in Emmitsburg Sunday night by Trooper Bond on a charge of operating an automobile while under the influence of liquor and jailed in default of \$1,000 bond. A hearing was scheduled before Magistrate Baker later Monday.

### ASK FOR DETAILS

A motion for a more specific complaint in the replevin action of Philip B. Sharpe, Fairfield R. D., against Ethel M. Sharpe, Fairfield, has been filed with the county prothonotary by Attorneys Swope, Brown and Swope for Mrs. Sharpe. Mrs. Sharpe is asking for additional information in the complaint filed by Sharpe in order to prepare a defense against his claims.

Just received leather and felle bags in black, navy, and high shades. Virginia Myers.

## WELFARE GROUP SEEKS TO HELP HOME INMATES

As another step in its efforts to better the lot of inmates at the county home, the Adams county Welfare Council will meet Monday, April 26, with the Adams County Ministerium and Judge W. C. Sheely to discuss the situation and ascertain what can be done to make the lives of the county's guests happier.

One step toward that goal may be the formation of an auxiliary which would visit with the inmates and provide friendships for them. Members of the council said at Monday evening's meeting held in the assistance offices on North Washington street.

### Submit Reports

Whether or not the elderly people at the county home would wish such visitors will be determined and if they do efforts will be made to secure members for such an auxiliary. It was decided.

Reports on a visit by the Rev. Dr. Dwight P. Putman, Miss Margaret McMillan, Mrs. Rasmus S. Saby and Mrs. Verna Myers to the county home were presented by each individual.

All agreed that Steward Dorsey Shultz and his staff "have done an excellent job in caring for the county's guests and in keeping the old buildings in good shape. The place was spotlessly clean, and there were no odors of disinfectants. The staff members were very pleasant and competent," the group reported.

But all pointed out that the age of the buildings at the county home permits little in the way of improvement. Built before electricity became generally used, the buildings were wired with the wiring open along the walls. The only lights in rooms are drop cords from the ceiling with a single bulb. Rooms in the men's building are so small that only a bed and a box or trunk can be fitted (Please Turn to Page 8)

## LIONS BUSY ON PREPARATIONS FOR CLUB SHOW

Preparations for the minstrel show to be given by the Gettysburg Lions club on Thursday and Friday, April 1 and 2, at the Gettysburg high school auditorium occupied most of the attention of the 79 Lions who attended the weekly dinner meeting at the Shetter House Monday evening.

There were rehearsals for the expanded Lions club chorus which will appear in the show and other black-face specialty numbers were practiced behind drawn curtains after the regular club session.

More tickets for the show—at 60 cents for general admission and 85 cents for reserved seats—were distributed to the club members for the two-night show. Receipts from the sale of tickets and advertisements in the printed programs to be used at the show will go into the club's charity fund.

### Completing Cast

General announcements on show plans were made by Kenneth P. Hull, chairman of the activities committee, that is in charge of arrangements for the affair. He said the cast of characters will be completed by this evening.

Donald Hershey was received as a new member of the club and was formally received by President M. P. Hartzell, Sr. The clubmen sang birthday greetings for George P. Eberhart, George T. Raffensperger and John Clapsaddle.

There was a meeting of the board of directors and the membership, tickets and program committees after the club session while other groups went ahead with show rehearsals.

## BULLETINS

Washington, March 16 (AP)—The White House said today President Truman is studying reports on the soft coal walkouts. Presidential Press Secretary Charles G. Ross told inquiring reporters, however, that "nothing concrete" has been done.

## Mercury Going To New 1948 Levels

With spring less than a week away by the calendar the thermometer at noon today showed 68 degrees and seemed headed for the 70's before the day is over. The low during the night was 55.

Monday was warm as well, with the top figure being 67 degrees. However the near-70 mark today set no special record. In 1945, March 16 showed a nice warm 84 degrees and frequently during the years temperatures in or close to the 70's were recorded. Last year March 16 was a chilly 42. The previous 1948 high was 68 on February 19.

## INCORPORATION OF LENTZ POST ACCOMPLISHED

The incorporation of the Albert J. Lentz Post No. 202, American Legion, became an accomplished fact Monday night at a series of three meetings held in the post home on Baltimore street, and William T. Timmins, Sr., became the first president of the new corporation, known as the American Legion club.

At the first meeting, the regular semi-monthly meeting of the post, with Commander Marvin Socia presiding, a resolution was adopted to transfer the real estate and property of the post to the club, the latter to assume all obligations of the post. A set of by-laws for the operation of the club was also adopted as recommended by the committee on incorporation, headed by Attorney Donald M. Swope.

Immediately after adjournment of the regular post-meeting, a meeting of the new corporation was held, also with Commander Socia presiding. (Please Turn to Page Two)

## Motion Pictures On UN Will Be Shown

Moving pictures on "The United Nations" will be shown Friday evening at 7:30 o'clock in the chapel of St. James Lutheran church. The films, "The People's Charter," and "Round Trip" will be shown by the Rev. Raymond P. Wieder.

There will be several musical numbers. John Schwartz and James Costanza will play "In a Monastery Garden," accompanied by Mrs. Howard Hartzell. Miss Yvonne Forry will sing as solos, "There's a Beautiful Land on High" by Mrs. A. H. Taylor, and a negro spiritual, "Somebody's Knockin' at Yo' Do," accompanied by Mrs. Richard B. Shade.

The public is invited to the meeting which is sponsored by the Women's Missionary Guild of St. James. An offering will be received.

## PAIR CAUGHT SHOPLIFTING

Two 14-year-old Gettysburg girls, caught shoplifting Saturday afternoon in a downtown York department store, had four shopping bags filled with merchandise which, they told York city detectives, they stole in nine stores in the central part of the city.

When apprehended the girls admitted, detectives said, that they had almost anything from "can openers to expensive dresses."

After being questioned in city hall, the two girls were committed to the Christian home and Probation Officer Henry Lenz was given a report of their activities. The Gettysburg police department was notified and asked to communicate with the parents of the girls.

Detectives Sergeant Orle H. Gosnell and Detective M. L. Avis, who were called after the girls were caught by clerks in the department store, reported the girls had slips. (Please Turn to Page Two)

## ELMER WARREN IS FIRST HEAD OF 'REC' BODY

Elmer W. Warren, trust officer of the First National bank here, who had been president of the Gettysburg Recreation association, was named first president of the organization under its new charter as a non-profit corporation.

The election was held Monday afternoon at the law offices of Swope, Brown and Swope. The association received its charter from the county court a week ago.

The Rev. Dr. Dwight P. Putman was named vice president; Mahlon P. Hartzell, Sr., secretary and George D. March, treasurer. The four officers and Glenn L. Bream, Mrs. Henrietta Blocher, William E. Knox, Philip M. Jones and Mrs. Sydney Poppy were named as directors.

### Adopt By-Laws

By-laws for the corporation were adopted and it was decided that the officers named Monday should have terms extending to the fourth Wednesday of April next year, the date set by the charter as the next annual meeting of the group.

Other meetings will be held at the call of the chair with the directors planning to meet approximately once a month.

Recreation Director Paul Whitmoyer reported on the adult education program at the high school and on the activities at the recreation center at the Hotel Gettysburg annex and youth activities at the high school gymnasium.

Plans for the summer program of the Recreation association were discussed but no final decisions were reached. According to the group, an expanded program of activities will be held this summer.

## NCCJ PLANS TO EXTEND EFFORT IN THIS AREA

Plans to stage a Religious Book Week celebration, hold brotherhood programs in various high schools in the county, and possible establishment of a number of Round Tables of the National Conference of Christians and Jews in the county were outlined Monday evening at a meeting of the Adams County Round Table of the NCCJ in the YWCA building.

Walter Klotzli, Dr. Norman S. Richardson, Mrs. William Sundermeyer, Mrs. Guyon Buehler and Dr. Louis King were appointed as a committee to work out plans for the Religious Book Week celebration in May.

School Committee  
Dr. Richardson and Dr. Lloyd C. Keefauver were named to work out arrangements for brotherhood programs in the various schools, with the programs to be much similar to one recently held at the Gettysburg high school in which college students from various counties took part.

The possibility of establishing Round Tables at Gettysburg college, and in various communities of the county was referred to the program committee.

Mr. Klotzli presented a brief summary of the President's Report on Civil Rights. He pointed out that all persons should be interested in the findings and in correcting the evils "because the United States' civil rights record has growing international repercussions. The Russians are using our record to convince many peoples of the lack of truth in our efforts and to gain converts to Communism."

37 Local Members  
Treasurer Mares Sherman reported that the group has 37 paid up members. The membership drive will be continued.

February 13 was chosen as the date for the annual public brotherhood meeting held in connection with the annual Brotherhood week program.

## Senate Committee Approves Lincoln - Gettysburg Stamp; Would Be Issued Nov. 19th

The United States Senate Committee on Post Office and Civil Service, to whom was referred Senator Francis J. Myers' joint resolution authorizing and directing the issuance of a government postage stamp to commemorate the 85th anniversary of Lincoln's Gettysburg Address, has submitted a favorable report and recommended "that the resolution, without amendment, do pass."

The committee in submitting its favorable report said: "Senate Joint Resolution 158 would authorize and direct the Post Office Department to prepare for issuance on November 19, 1948, a special series of 3-cent postage stamps commemorating the 85th anniversary of Abraham Lincoln's historic address at Gettysburg, Pa."

### Virginian Approves Bill

"The committee invited expressions of opinion on the desirability of issuing this stamp and received among others, a statement from T. J. Wertenbaker, of Williamsburg, Va., President, American Historical association, who writes:

"I can only say commemorating Lincoln's Gettysburg Address should have the support of all loyal Americans. I say this without reservation, despite the fact that my father fought in the Confederate Army from the beginning to the end of the War Between the States."

"I have no doubt that this measure would have the support of the American Historical association, but I do not feel that I, as President, could commit them."

"In his letter to the committee February 3, 1948, the Postmaster General declared that the Post Office Department feels that it should not make a favorable report on this joint resolution at the present time. The Postmaster General said the Department—

## Littlestown COLLEGIANS CONDUCTING TOWN SURVEY

Six students in the sociology class of Gettysburg college, taught by Prof. C. A. Seils, have begun a house-to-house canvass in Littlestown in the interest of public welfare.

The survey includes such questions as general standards of living; family income; religion; education; health; population; local activity, etc. All information received on this survey is confidential.

When the survey was first planned, it was anticipated that the work could be completed in three or four weeks. It was stated on Monday that the work would likely require five more weeks. The students will appreciate the continued cooperation of the community until the completion of this important project. Littlestown was selected for this survey because of its size. The students making the survey are Anna Martin, Jane Heilman, George Griffith, Robert Nemesch and William McKendry.

### Personal Items

Mr. and Mrs. Paul Long, son, Thomas, and daughters, Cathay Jane, and Laurie Ann, Mechanicsburg, spent Sunday with Mrs. Long's parents, Mr. and Mrs. A. W. Schott, South Queen street.

TAKE APPEAL TO SUPREME COURT IN UNION CASE

By NORMAN WALKER

Washington, March 16 (AP)—A district court decision holding invalid the Taft-Hartley Act ban on union political spending headed today toward an early Supreme Court review.

The Justice department said it will appeal directly to the high tribunal "as promptly as possible."

Labor union attorneys saw a chance for a final ruling before the Supreme Court's summer recess in June. Confident the lower court will be upheld, they said they hope the decision will come in time for unions to go ahead with 1948 campaign plans.

Dismiss Indictment

In his decision yesterday Federal Judge Ben Moore dismissed an indictment brought under the spending ban against the CIO and its president, Philip Murray.

Murray said he violated the ban deliberately to provide a quick court test. He published a signed endorsement in the union-financed CIO News last July 14 for Edward Garmatz, Democratic Congressional candidate from Baltimore. It was published the day before Garmatz was elected, with copies distributed in Baltimore.

Moore said the spending ban violates the freedoms of speech, press and assembly and thus is unconstitutional.

Senator Taft (R-Ohio), co-author of the act, said at Portland, Me., where he is campaigning for the GOP presidential nomination: "I don't see how he can make a general finding of this kind."

PUSH DRIVE FOR GENERAL "IKE"

(By The Associated Press)

New moves to put Gen. Dwight D. Eisenhower in the presidential race were under way today.

The question of the general's "availability" remains very much alive, says Leonard V. Funder, Manchester, N. H., publisher.

It was to Funder that Eisenhower wrote last January that he could not accept nomination. Funder says in a letter to Look magazine:

"The people still retain the power to have the last say. While the average voter usually has little voice in the selection of candidates, the popular regard for Eisenhower remains so strong that it can, if the people so will it, make itself heard in the (Republican) convention hall at Philadelphia next June."

Eisenhower, who soon will take over as president of Columbia University, was silent on this and other draft-Eisenhower movements.

Senator Olin D. Johnston, South Carolina Democrat, proposed that southern Democrats organize solidly behind Eisenhower for the presidential nomination.

Johnston contended Eisenhower is an Independent, not a Republican. Johnston called the retired chief of staff the best drawing card anti-Truman Democrats could pick to win nationwide support.

In New York, Torrey Stearns, an advertising executive, launched a postcard-for-Eisenhower campaign. He invited all voters to write saying they wanted Eisenhower for president.

SCHOOLS GET ADAMS APPLES

Harrisburg, March 16 (AP)—Forty-two carloads of Pennsylvania apples will be distributed among Commonwealth schools in conjunction with the school lunch program.

Twenty-one carloads of the apples were purchased by the federal government from the Berks-Lehigh Apple Growers Association, five from the Adams County Cooperative Fruit Growers and the others were scattered across the state.

John A. Smith, secretary of the Pennsylvania unit of the U. S. production and marketing administration, said the apples were bought at an average price of \$1.67 a bushel. He added the total price was unavailable.

The purchases were made, he said under a section of the price support act permitting such purchases for direct purposes, such as the school lunch program.

YOUTHS TO VISIT HERE

Twenty negro boys and girls from Alabama will visit Gettysburg Thursday, April 8, as part of a citizenship tour of the east arranged by civic groups, individuals and newspapers in that state, the Chamber of Commerce has learned. The group will leave Birmingham April 1, and visit Gettysburg and Washington among other national shrines during the nine day tour.

LIONS SHOW IS WELL ATTENDED

A capacity house turned out Monday evening for the show which Team No. 1 of the Upper Adams County Lions club presented in the Biglerville community hall, the proceeds from which will be used in helping pay for the Biglerville school band uniforms and for current civic needs.

The show will be repeated in the Arendtsville auditorium this evening where it is expected another full house will be in attendance.

Visiting talent at the show included the Ambassador Quartet and Hand Bell Ringers and the Sylvester Varieties, a program of mystery a Punch and Judy show, novelty and humor.

A special feature of the evening was a drill by the school band's majorettes ending with the formation of the words "Yea Lions." Margaret Yost is the drum major with the following majorettes: Betty Unger, Ruth Longenecker, Carolyn Dillon, Carolyn Taylor, Barbara Lawver, Barbara Geiselman and Janet Lehen. The band's color guard includes Helen Taylor, Margaret Tilton, Doris Lady, Audrey Heller and Dolores Kapp. Joan Enck played the piano accompaniment of the drill.

Oscar C. Rice, Jr., captain of the sponsoring Lions team, introduced the visiting talent and Prof. Charles L. Yost, band director, gave a brief talk preceding the drill by the majorettes.

PLAN NEW AIR FEEDER LINES

Wilmington, Del., March 16 (AP)—All-American Aviation, Inc., said today it will be ready to start passenger service in eight eastern states within six months.

A company spokesman said, however, that it was not yet certain whether All-American would begin conventional air operations within that period of time.

He pointed out that before the company could begin its projected feeder service it would be necessary for the Civil Aeronautics Board to rule on parallel routes.

The spokesman explained that under a CAB ruling approving All-American's expanded operations, All-American was required to prove that its new operations would not duplicate its present air pickup service.

Gettysburg is one of the 88 communities now served air mail pickup by All-American.

Royalty Deprived Of Heat By Strike

London, March 16 (AP)—Strikers deprived the king, queen and dowager Queen Mary of central heating and running water today for the second day in a row.

Buckingham palace servants carried containers of hot water upstairs for the royal baths.

About 50 buildings were struck by service employees. The Houses of Parliament, Marlborough house where Queen Mary lives, Kensington palace, and the low courts were among those affected.

The strikers belong to five unions. The unions are not supporting the walkout. The men demanded increases in their salaries from \$19.50 to \$22 a week. The treasury denied the demand in accordance with a government white paper asking that wages be frozen to combat inflation.

FIND MAN'S BODY

Cumberland, Md., March 16 (AP)—The disappearance of a Pennsylvania man seven months ago was solved last night by discovery of his bones on a nearby mountainside. The victim was William Dale, 24, of Meyersdale, Pa., identification was made through his dental work. Dr. H. V. Deming, medical examiner, said Dale apparently fell and struck his back against a rock. He issued a certificate of accidental death.

CAPITAL PAPER LAUDS WORLEY

Under the heading, "A Candidate with Courage," the Harrisburg Patriot on Saturday commented editorially on the stand taken last year by Assemblyman Francis Worley in casting the only vote in the House against the \$100 a month expense allotment for the state's legislators.

The paper said in part: "On one issue alone, if no other, Rep. Francis Worley of York Springs, Adams county, is entitled to re-nomination in the Republican primary. Mr. Worley was the one member of the House with conscience and courage adequate for a vote against the bill which . . . gave the legislators \$100 a month expense money as a subterfuge for an increase in salary which would have been unconstitutional."

"Of all the shameful acts of lawmakers, this dodge of the constitution which prohibits increase in salary while in public office was close to precedent shattering. It becomes all the more disgraceful with the fact that only one member of the House voted against it."

"Adams county should be proud of such legislative courage. Pennsylvania needs more than it has. The issue is not one of adequate pay for legislators. On that the taxpayers are agreed. The offense is the hypocrisy with which the thing was done. Representative Worley can be proud he was not a party to it and so can his constituents unless they now reject him."

COAL SHORTAGE TO HIT STEEL

New York, March 16 (AP)—Steel enterprises probably will be the first industry to feel the effects of the soft coal walkout.

There is a possibility that some mills may have to curtail production within several days. Others are in a position to operate normally for several weeks.

R. E. Howe, president of Appalachian Coals, Inc., estimated at Cincinnati there was an average of about 34 days' coal for industry purposes on hand. Appalachian, Howe said, is agent for 50 coal producers and sells 40,000,000 tons of high volatile fuel annually.

The extent to which the walkout spreads, the length of time it lasts, the size of the stock piles at the mills—these are the gauges of the effect the "holiday" will have. When soft coal stops flowing to the coke ovens of the steel mills, the jolt is felt by automobile producers, home appliance manufacturers, building contractors and innumerable other industries.

The steel industry just yesterday announced it had set for itself another post-war production record for this week. Demand for steel is unceasing. If the European recovery plan becomes law, the evening up of supply and demand will be delayed for months.

HELD FOR COURT

(Continued from Page 1) the Lincoln highway 500 yards east of Abbotstown.

Mrs. Minnie Goodenberger, the widow, testified her husband was "about ten or 12 inches from the paved highway" when struck and added that she was standing within inches of him at the time. Goodenberger's head was crushed when the truck, loaded with ten tons of cordwood, struck him. The truck was in the third lane of traffic going east and was attempting to pass two cars which were abreast of the truck.

Leo A. Altland, Abbotstown, operator of a car which was waiting for Goodenberger, said he was parked partly on the highway and partly off while waiting for the Goodenbergers to cross the highway. Clair E. Summers, Abbotstown R. 1, said he was passing Altland's parked car as the truck passed his car on the left and struck Goodenberger.

State police testified that Keger's vehicle which had a legal load limit of 15,000 pounds was carrying 21,460 pounds of cordwood at the time of the fatality. He has been fined for overloading his truck.

Rubinoff And His Violin At Hanover

Under the sponsorship of the Exchange Club of Hanover, Dave Rubinoff and his violin will be heard in a concert Monday, April 5, in the Eichelberger senior high school auditorium in Hanover. The hour for the concert is 8:15 p. m.

Tickets for the concert are available locally at Green's Record shop, First National bank building. Rubinoff, formerly widely known for his radio violin concerts, now is on tour of the nation.

## HIGGINS HAS HOLE IN LINE

State College, March 16 (AP)—The problem of plugging a gaping hole on the right side of the stalwart Penn State line confronted Coach Bob Higgins as the Nittany Lions opened spring football drills.

"We are going to need some replacements on the line for some fine players we lost by graduation," Higgins said after surveying his squad of 45 candidates yesterday.

But on the brighter side, 19 lettermen from State's rugged, undefeated 1947 grid machine will be back to bolster the team this year.

The Nittany Lions completed their regular season last year without suffering a defeat, and then tied Southern Methodist 13-13 in the Cotton Bowl on New Year's Day.

Seven of the men who started against Southern Methodist were on hand for the first practice session. They were Chuck Drazenovich, Wally Triplett, Joe Colone, and Larry Joe in the backfield, along with Joe Drazenovich, Sam Tamburo and Negley Norton on the line.

The hole in the State line is caused by the loss of co-captains Johnny Patskan, at end, and Johnny Nolan at tackle, in addition to all-American Steve Surey, at guard. Jeff Duroka, who scored two touchdowns in State's victory over Navy, will be lost in the backfield.

## Training Camp Briefs

**St. Petersburg, Fla., March 16 (AP)**—Terry Moore, veteran center-fielder of the St. Louis Cardinals, may be able to rest more often this season now that his understudy, Chuck Diering, is showing signs of becoming a hitter.

Diering, who can run and throw with the best of them, had trouble hitting National league pitching last season, his first in the majors.

Yesterday, Diering started in the Cards' 4-0 conquest of the Detroit Tigers. Diering started a three-run rally with a triple and in addition batted out two singles.

**West Palm Beach, Fla., March 16 (AP)**—The Philadelphia Athletics' roster was complete today with the exception of Ferris Fain, recovering from a knee injury.

Catcher Mike Guerra arrived from Cuba yesterday. He may see action in an intra-squad game today.

**Sarasota, Fla., March 16 (AP)**—Manager Ben Chapman concentrated today on patching up the Philadelphia Phillies' weak spots which enabled the New York Yankees to collect a 10-5 yesterday. The Phils tangle with the Boston Red Sox here today.

**Hollywood, Calif., March 16 (AP)**—The New York Giants and the Pittsburgh Pirates, whose 1947 meetings were highlighted by home runs, hook up for the first time this season today.

So far in 10 games, the Giants have banged 10 homers while the Pirates have whacked four in six. Neither Johnny Mize of the Giants or Ralph Kiner of the Pirates, who for the home run leadership last year, has socked a homer.

**Muhlenberg Meets  
Moravian Five Next**

Philadelphia, March 16 (AP)—Muhlenberg college will meet Moravian tomorrow night in the final round of the Middle Atlantic Basketball conference.

Muhlenberg swamped Pennsylvania Military college last night 95-31 and Moravian turned back Dickinson 74-64 in semi-final games at the University of Pennsylvania's Palestra. PMC and Dickinson will clash in a consolation game tomorrow night.

Muhlenberg, undefeated in conference competition this season to win the loop's northern crown, had little trouble overcoming PMC, Southern division winner.

Moravian had to overcome a Dickinson halftime lead of 32-27. Moravian won the conference's Western division race while Dickinson was an invited five in the tournament.

## CRISLER QUILTS AS GRID COACH AT MICHIGAN

Ann Arbor, Mich., March 16 (AP)—H. O. (Fritz) Crisler, who guided Michigan to the apex of football glory, today ended his coaching career.

Even as he announced his retirement from the football bench, the handsome, greying, 49-year-old mentor named as his immediate successor Benny G. Oosterbaan, his backfield assistant.

Crisler will remain the university's athletic director.

He started the sports world with his announcement shortly before midnight, attributing his decision to "the exacting demands" of his position as head of the department of physical education, athletic director and head football coach.

**Third Undeclared Season**  
The shrewd and canny chief stepped down in the year of his greatest triumph.

His 1947 squad rolled over nine opponents like no Michigan club had been able to do since the point-a-minute combine of the early 1900's.

After an undefeated season, his third in 17 years of major collegiate coaching, Crisler took his powerhouse out west and inflicted one of the most stunning defeats in Rose Bowl history on a hapless University of Southern California squad.

The 49 to 0 score duplicated Michigan's 1902 venture against Stanford that originated the famous bowl series.

**Snowmen Cop Tilt  
In Tourney Play**

"Bud" Ecker's Gettysburg Snowmen, composed of Gettysburg college varsity and freshmen cage stars, defeated the Hanover A.A. 75-54 in an opening round game Monday night of the Gold Medal tournament being held at Waynesboro.

After being held to a five-point lead at the half, the Snowmen spurred in the third period to take a 15-point margin. Plechner landed 25 points to pace the winners while Bucky Harris' ball-handling was outstanding.

**Clyde B. Smith Is  
Indiana U. Coach**

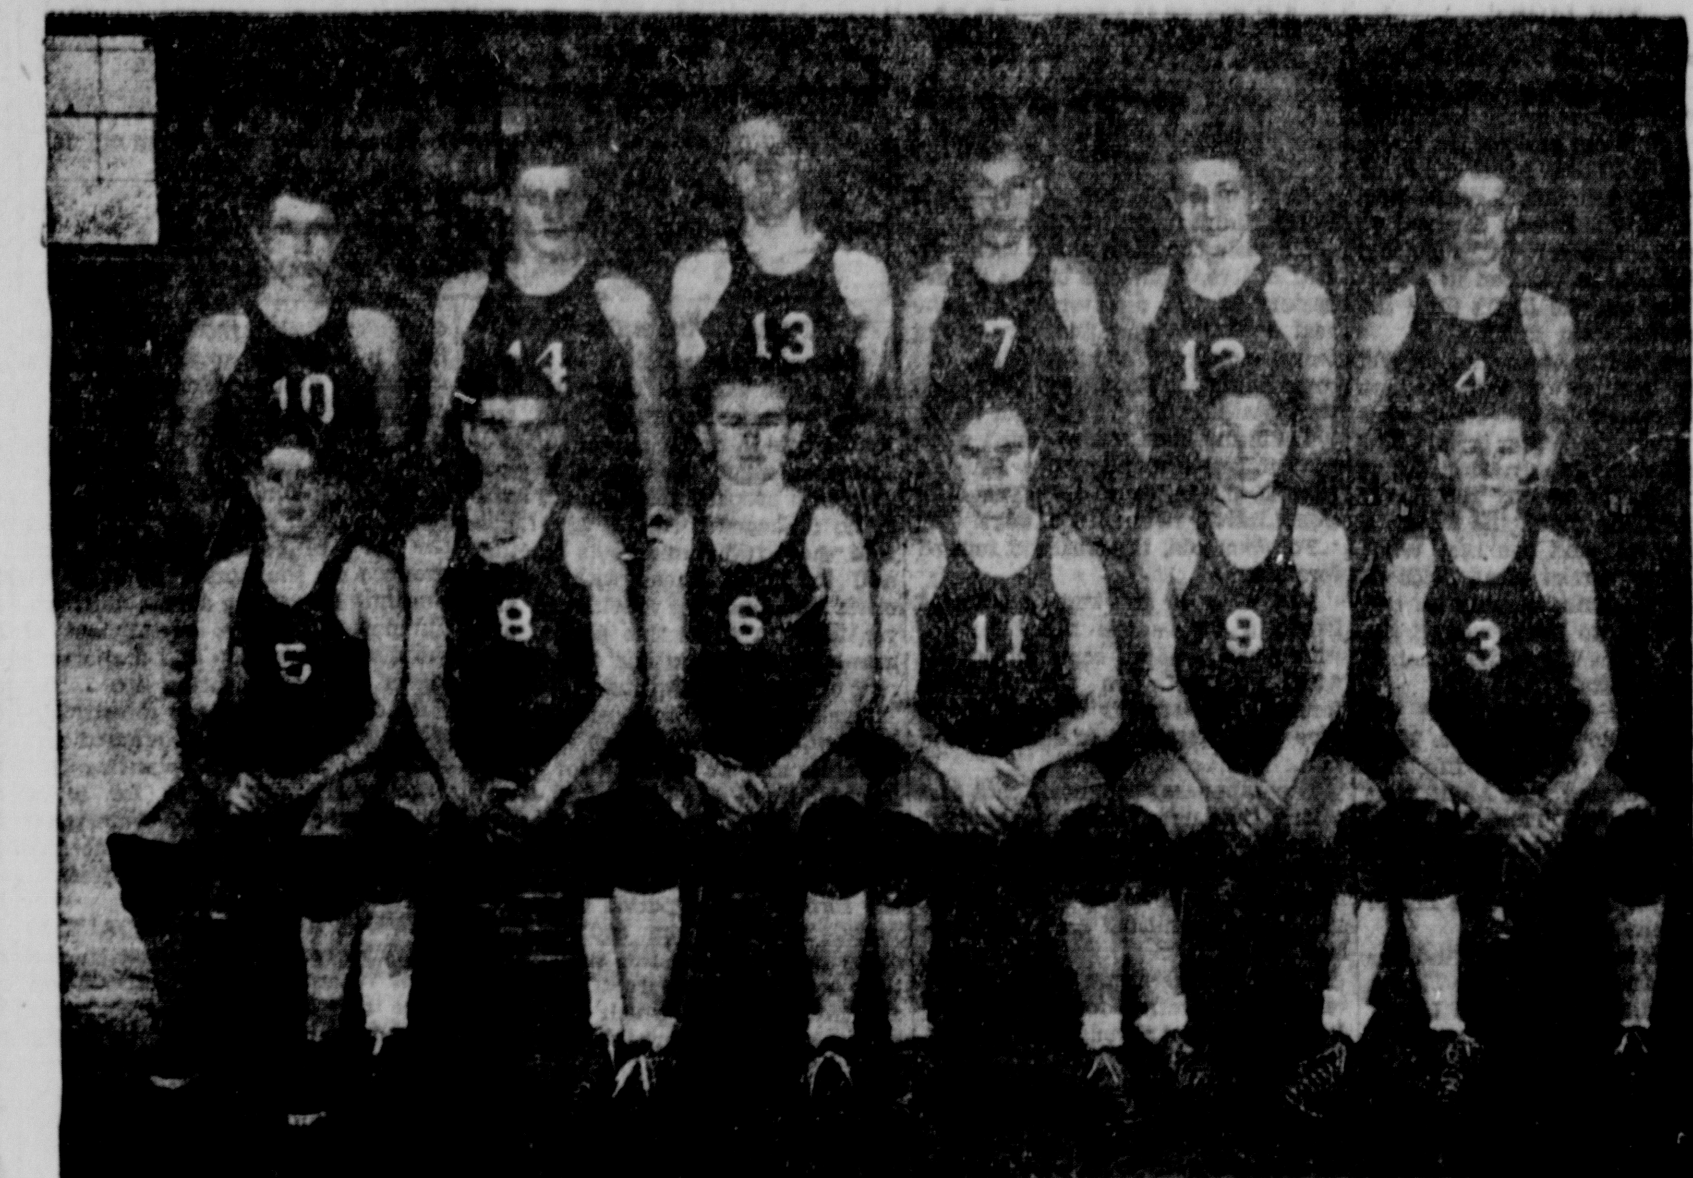

Bloomington, Ind., March 16 (AP)—Clyde B. Smith, head football coach at LaCrosse (Wis.) State Teachers' college, today was named head grid coach at Indiana university, succeeding Alvin M. (Bo.) McMillin.

The appointment of Smith, a former Indiana line coach, to a three-year contract was announced today by Athletic Director Paul (Pooch) Harrell, following approval by the university board of trustees. No salary terms were disclosed.

The schedule follows: April 13, Hanover, home; 16, New Oxford, home; 20, Boiling Springs, home; 23, York Springs, away; 27, Littlestown, away; 30, East Berlin, home; May 4, Boiling Springs, away; 7, York Springs, home; 11, Littlestown, home; 14, East Berlin, away; 18, New Oxford, away; 20, Hanover, away.

## Minelli Suffers Second Setback

Philadelphia, March 16 (AP)—Livio Minelli, Italy's welterweight, suffered his second setback in the Quaker City last night as Bobby Lee, of Baltimore, won a decisive 10-round decision at the Arena.

Minelli, who won 106 straight fights before suffering his first setback by Lightweight Champion Ike Williams several months ago, was slow on starting and weak in closing.

Lee, who was picked to substitute for Dorsey Lay, took the offensive from the opening bell and continued throughout the entire fight.

Minelli's best showing was in the ninth, which was the only round Judge Lew Tress gave him.

## Penna. Socialists To Oppose Slates

Harrisburg, March 16 (AP)—The Socialist party in Pennsylvania served notice today it will oppose both Democratic and Republican choices for auditor general and state treasurer in the November election.

The party filed nomination petitions with the state election bureau yesterday to place the name of Hans Peters, Southampton, Bucks county, on the ballot, as a candidate for auditor general, and Walter R. Hollinger, Reading, for state treasurer.

The party's candidate for president of the United States is Maynard C. Krueger, of Chicago, and Darlington Hoopes, of Reading, for vice president.

Yesterday was the final day for withdrawal of petitions before the April 27 primary election.

**Today's Talk**  
THE LIGHT

The source of all life is the Light.  
And how eagerly we look forward  
to it. We think of it the last thing  
when we go to our rest for the night,  
wondering what that Light will bring  
forth on the morrow. I recall with  
what anxiety I looked forward to  
this Light, when for weeks I could  
only get snatches of sleep in a hos-  
pital. I counted the hours until the  
Light would again appear.

Artists love the Light and depend  
upon it, because of the shadows  
which it creates. How it emphasizes  
beauty. How revealing it is! How it  
creeps among the growing things  
of earth, dances among the leaves  
of the trees, and upon the waves of  
streams, lakes, and the sea. What  
races it runs across great fields of  
grass, how it climbs mountains, and  
gives emphasis to the clouds of the  
sky. Never is the Light the same. It  
lives in moments.

It is during darkness that the  
forces of evil do their worst. They  
fear the Light. Light is life and  
hope. It is during the Light that  
growth is created. Time for labor  
and activity. The beginning of the  
world was when Light appeared.  
"And God said, Let there be Light:  
and there was Light."

What a blessing to mankind re-  
sulted from the invention, by Thom-  
as A. Edison, of the electric Light!  
The efficiency of the entire world  
took a leap forward.

The artists always look to the  
Light to guide their brushes and  
formulate their colors. In Nature  
they get their cues and their vari-  
ations, for Nature's compositions are  
perfect. She is the teacher of us all.  
It is the Light that gives the con-  
trasts that make all art dramatic and  
interesting.

When I was a boy the homes were  
nearly always equipped with blinds  
for the windows. People kept the  
light out. Today they are eliminated.  
The more Light the better the  
health of all within the home. The  
Light of the Sun is God's medicine.

It is the Light of Truth that has  
given us what civilization we have  
today. Be honest with people. Give  
them the truth and they will work  
their way happily ahead. It's the  
concealment of the truth that causes  
revolutions, both good and bad. The  
enlightened mind alone inspires the  
forward march of human happiness.  
The sunny side is the safest.

Tomorrow Mr. Adams will talk on  
the subject: "Leisure to Admire  
and Enjoy"

A SPENDTHRIFT TALKS

I know they will say that I tossed  
it away,  
And I ought to have saved when  
I could,  
But the best money buys is the  
light in their eyes,  
Which by misers is not  
understood.

I know 'twill be said I'd no sense  
in my head;  
That my heart ran away with  
my brain,  
But, I let the cash go for what  
thrill went bestow—  
And I'd do it all over again.

I knew what was meant by the  
phrase: "Four per cent"  
And that two and two always  
make four.

I could have bought stocks,  
instead of new frocks,  
But I valued their love so  
much more.

**IRON CURTAIN  
JAP INVENTION  
OF YEARS AGO**

Washington, March 16 (AP)—Josef  
Stalin didn't invent the iron curtain.  
He stole the idea, along with sev-  
eral others, from one of his prede-  
cessors in the dictator trade. The  
real inventor was another strong  
man, named Iyemitsu, who did the  
some things to Japan 300 years ago  
that Stalin is doing to Russia today.

Their methods are so much alike  
that if you transplanted a Russian  
from 1948 Moscow to 1648 Tokyo he  
would hardly notice the change.

For example, the attitude toward  
foreigners.

Last Dec. 16 the supreme Soviet  
issued a decree the net effect of  
which was that all communications  
with foreigners go through the  
foreign ministry. It covered every  
type of conversation or communica-  
tion.

The Japanese thought of that one  
a long time ago. First, they banned  
virtually all foreigners from the  
country. Those remaining were con-  
fined to a small island off Nagasaki  
and never permitted on the main-  
land.

By decree, there was to be no con-  
versation between a foreigner and a  
Japanese except through the official  
interpreters.

No Japanese, in that day, was per-  
mitted to leave Japan. The penalty  
for attempting it was death. The  
average Russian, in theory, can go  
abroad. But in practice no Soviet  
citizen leaves except on an official  
mission. A few have escaped, but  
they did it by concealing their in-  
tentions and with the full knowledge  
of the risks involved.

"Checkboard" Is Jap Device

Through their wives and families,  
who usually remain behind, the So-  
viet government has a pretty good  
guarantee of the loyalty of the  
Russians who go abroad. In precisely  
the same way Iyemitsu decreed that  
the wives and families of his officials  
were to be left in his capital for the  
period each year when the officials  
were allowed to be away from it.

Did you ever hear of the "check-  
board"? The Russian secret police  
uses it, but it was invented by the  
Japanese.

It is a method for changing the  
guards, suddenly, in a government  
building. Guard "A" may have plot-  
ted to let an assassin slip through  
the front gate at 10:15, when he was  
to be on duty there.

But at 10:15 he isn't at the front  
gate. A bell rang suddenly, and he  
was switched to another part of the  
building. Every guard has been sent  
to a new post. The would-be assassin  
meets a strange fate.

Japan Never Recovered

The Kremlin is guarded thus to-  
day. Yemitsu's palace was protected  
in the same way three centuries  
ago.

Stalin and his predecessor were  
both great believers in internal es-  
pionage. The Japanese dictator  
worked out an intricate system of  
spies and counter-spies and counter-  
counter-spies. They worked from the  
court down to the lowest peasant  
and man on the street. That pattern  
exists again today in Soviet Russia.

The parallel continues, point for  
point, modified by modern mechan-  
ical techniques but not in pattern.

As a result of the earlier dictator,  
Japan became the "hermit king-  
dom" and fell far behind the rest  
of the world. It never recovered.

**Uses Ad Appeal In  
His Proclamations**

Brookville, Pa., March 16 (AP)—Bur-  
gess Edward H. McAninch has ad-  
opted an advertising style for his  
official proclamations.

The burgess yesterday set forth his  
policy on stray dogs in the following  
manner:

"A man's best friend is his dog  
so why don't you take care of your  
dog?"

"Dogs are not allowed to run at  
large day or night. If permitted to  
do so, you might lose your friend  
and also be fined."

**IF STOMACH  
BALKS DUE TO  
GAS AND BLOAT**

Help Get Food Digested to  
Relieve Yourself of This  
Nervous Distress

Do you feel all puffed-up and miserable  
after every meal, taste sour, bitter food?  
If so, here is how you may get blessed  
relief in helping your stomach do the  
job—it should be doing—in the diges-  
tion of its food.

Everytime food enters the stomach a  
vital gastric juice must flow normally to  
break-up certain food particles; else the  
food may ferment. Sour food, acid indi-  
gestion and gas frequently cause a mor-  
bid, touchy, fretful, peevish, nervous  
condition, loss of appetite, underweight,  
restless sleep, weakness.

To get real relief you must increase  
the flow of this vital gastric juice. Medi-  
cal authorities, in independent labora-  
tory tests on human stomachs, have by  
positive proof shown that SSS Tonic is  
amazingly effective in increasing this  
flow when it is too little or scanty due  
to a non-organic stomach disturbance.  
This is due to the SSS Tonic formula  
which contains special and potent ac-  
tivating ingredients.

Also, SSS Tonic helps build-up non-  
organic, weak, watery blood in nutri-  
tional anemia—→ with a good flow of  
this gastric digestive juice, plus rich red-  
blood you should eat better, sleep better,  
feel better, work better, play better.

Avoid punishing yourself with over-  
doses of soda and other alkalis to  
counteract gas and bloating when what  
you so dearly need is SSS Tonic to help  
you digest food for body strength and  
repair. Don't wait! Join the host of  
happy people SSS Tonic has helped.

**LAST CALL FOR ASPARAGUS**

Asparagus roots should be planted  
as early as soil and weather condi-  
tions permit. No other food crop  
man grows in northern gardens pro-  
duces as much food from a given  
area as a properly planted and care-  
fully managed bed of asparagus.  
Add these two sound facts together  
and ornament them with several  
other reasons for including this  
vegetable in the home garden and  
growers will understand the timeli-  
ness of this final planting suggestion.

One-year old roots are recom-  
mended, although a few two-year  
old roots may be included for plant-  
ing along one side of the bed. Two-  
year old roots come into production  
one year ahead of the one-year old  
roots, but the latter far out-produce  
the former over a period of several  
years. This may be explained in  
many instances by the supposition  
that a two-year old root is merely  
an inferior root which was not  
strong enough to market at the one-  
year stage.

Asparagus will occupy the original  
plot many years. Therefore, the site  
should be wisely selected. First, the  
soil must be mellow, deep, well  
drained and sunny—a type that  
warms up early in the spring. Shall-  
owness and hardness are not tol-  
erated by this deeply rooting vege-  
table. Well rotted manure turned  
under deeply improves moist soils  
for asparagus. Next, the location  
should be along one side of the gar-  
den where the bed will not unduly  
interfere with other annual garden-  
ing operations thereafter.

Commercial fertilizer should be  
broadcast and worked into the top  
soil before roots are planted, pre-  
ferably a strength ranging between  
a 4-8-6 and 5-10-10 strength, at  
rates of 1,000 to 1,500 pounds per  
acre. The potash portion of the  
fertilizer should be composed of  
muriate of potash, not sulphate of  
potash.

The practice of strewing salt over  
asparagus beds is seldom advised in  
recent years. Originally intended  
chiefly to eradicate weeds and help  
the soil suitably alkaline, salt was  
later interpreted as some  
strange cure-all for this crop, espe-  
cially by home gardeners. Now it  
is wiser to render the soil properly  
alkaline by applications of lime and  
to keep weeds completely removed  
by the effective use of a hoe or hand  
prow. Due to the fact that asparagus  
roots lie shallow in the top soil, or  
at least some of them do when the  
plants are young, cultivation must  
always be shallow.

It is advisable to harvest no  
shoots the second spring after plant-  
ing, and perhaps no more than a  
random few the third year. There-  
after cutting for two or three years  
or until the bed is vigorously estab-  
lished should cease around the mid-  
dle of June. The final cuttings should  
be taken from old beds no later  
than the first week in July. Reasons  
for this advice are simple but im-  
portant.

Like peonies, rhubarb and other

ornamental and food plants which  
form bulbous, tuberous or otherwise  
matted or fleshy underground parts,  
asparagus plants store strength in  
late summer for the next year's  
growth. For example, an established  
asparagus plant stores strength in  
its roots after early July in 1948 for  
the crop of edible sprouts it will  
produce in the spring of 1949. To  
continue harvesting shoots until late  
summer means the curtailment of  
the next year's crop and a shorten-  
ing of the bed's bearing life.

Readers who have not already ob-  
tained a copy of our condensed and  
simplified asparagus planting in-  
structions should write for it at  
once. Please enclose a 3-cent stamp  
for return postage and include any  
questions desired on the subject.

Several readers have written the  
editor recently to seek information  
about their boxwoods. In most cases  
they describe weakened or dying  
foliage and in a few instances com-  
plete loss of valuable plants. Below  
we offer a few suggestions to aid all  
owners of these stately ornamentals  
in diagnosing common ills and  
avoiding prevalent dangers.

Many boxwoods in this general  
latitude are still suffering from the  
severe droughts of the early and  
middle 1930s. These shrubs grow  
slowly. They demand plenty of  
moisture without at any time the  
danger of "wet feet." When once  
stricken with a season of insufficient  
moisture, they may easily show the  
ill effects for many years afterward.

Growers, especially beginners with  
boxwoods, should avoid the error of  
giving them an over-fertile loam.  
Likewise the other extreme should  
not be courted. Perhaps the ideal  
soil for this shrub is a fairly heavy  
clay loam abundantly and deeply  
supplied with moisture-holding or-  
ganic matter. Only when a fairly  
large boxwood has been taken up  
and moved, with interruption of  
growth and loss of at least part of  
its feeder rootlet complements,  
should some extra fertile loam be  
added to overcome the disturbed  
growth.

Causes of dying foliage, loss of  
normal green coloring, weak shoots  
and early dropping of the older  
leaves, and even death of entire  
branches should be sought among  
several causes.

First, suspicions among these  
causes should be cast toward poor  
drainage, shallow or hard soils which  
lack the capacity for catching and  
retaining moisture, and too deep  
planting at the last transplanting  
operation. Better soil aeration often  
works wonders where failure is re-  
sulting from any of these errors.

Next, it is always advisable to look  
for sunken or otherwise abnormal  
bark areas on the trunk just above  
the ground level or at crotches of  
the main branches. Often bark over  
and around these sunken areas is  
loose and patches of it may be strip-  
ped off with ease. Here winter injury  
should be suspected. In many cases

early summer growth has been tem-  
porarily checked and then late  
growth came on with lack of time  
to mature before winter arrived. Or  
a similar condition was stimulated  
by feeding the plant nitrogenous  
foods too late in the spring or early  
summer. Or again, mild spells in  
winter occasionally induce abnor-  
mally early bark activities, particu-  
larly where the shrub is exposed to  
direct sunlight without winter pro-  
tection. Return of freezing weather  
thereafter kills or badly injures the  
active bark.

Leaf miner injuries are quite easily  
recognized by blistering-like evi-  
dences on the lower sides of the in-  
fested leaves. Too, red spider mites  
may cause defoliation by their in-  
conspicuous feeding, although most  
ornamental plant growers soon learn  
to detect and root these tiny pests.

If growing conditions, drought  
ravages and winter injuries are  
carefully considered and found not  
guilty in the grower's court of in-  
quiry, then if leaf miners and red  
spiders are acquitted of defoliation  
charges, it may be well to suspect  
one of two or three diseases—twig  
blight and wilt, with certain supple-  
mental or related ills. Spraying af-  
fected boxwoods with 4-4-50 Bor-  
deaux mixture after new growth is  
well started in the spring may prove  
helpful.

Readers who write the editor  
should give as many details of soil  
conditions, symptoms and other re-  
lated facts as possible in efforts to  
help arrive at boxwood troubles in-  
teelligently.

# MANIAC SHOTS INTO CROWD OF KIDDIES; KILLS 1

By BEVERLY R. YOUNG

New York, March 16 (AP)—A two-gun maniac, imbued with a wild urge to "kill Catholics," fired into a crowd of 400 screaming parochial school students yesterday, killing one boy and wounding six others.

"They killed my son. They killed my son," the slayer, identified by police as Serbian-born Marko L. Markovich, 64, cried brokenly after his capture.

The attack, which plunged the busy Columbus Circle area into an uproar, took place shortly before 3 p. m. (EST) outside an armory where Catholic students of Power Memorial academy were rehearsing for tomorrow's St. Patrick's Day parade.

## Boy 16, Slain

Brandishing two revolvers, the fanatic rushed into the terror-struck crowd and opened fire. Thomas Brady, 16-year-old sophomore, slumped to the sidewalk, dead, his head pillowed on a textbook, "Christianity and Civilization," he had been carrying.

Three other teen-age students crumpled to the street, critically wounded. A trio of others were nicked by the spray of bullets.

The slayer then fired point-blank at two other boys and fled when the gun misfired. Enraged students, joined by police, gave chase.

## Gun Misses Fire

The three-block pursuit ended when Markovich ducked into a building where, flashing a knife, he was captured by patrolmen. He had tried to fire at his pursuers but again his weapons misfired.

Detectives quoted Markovich as saying that as he approached the armory he asked who the boys were and was told "schoolboys from a Catholic church."

"At the word Catholic I went mad," Markovich was quoted as saying. "I started firing bullets."

Police said the man then told them:

## Four-Year Obsession

"The Catholics killed my boy. I have been thinking about killing them for a long time. On Sunday I even went into the Paulist church. (The Roman Catholic church of St. Paul the Apostle) intending to kill as many as possible. I changed my mind when I saw a lot of men I thought were cops."

Assistant District Attorney Henry Whitney said the unemployed welder blamed the death of his 13-year-old son on "fool play of Catholics."

## Emmitsburg

Emmitsburg—Mrs. John O'Donnell, of Philadelphia, is spending some time visiting Mrs. Euphemie Rotering.

Mrs. Roy Bollinger, Mrs. Fred Bower and children, Patty Jean, Frederick, Jr., and Johnny, spent Saturday visiting Mr. and Mrs. Halbert Poole, Jr. and family at Potomac, Md.

Miss Virginia Wagerman spent Friday in Baltimore.

Miss Bessie Topper, of Baltimore, spent the week-end visiting Mr. and Mrs. Quinn F. Topper.

Mr. and Mrs. Claude Sullivan and daughter, Sally, spent the week-end with Miss Nellie Felix and Prof. and Mrs. George C. Thompson.

The infant son of Mr. and Mrs. Carl Orndorff, who was born on March 4, was admitted last Thursday as a patient at Union Memorial hospital, Baltimore, for treatments.

Miss Mae Rowe, teacher in the Reisterstown high school, spent the week-end with her father, M. Frank Rowe.

Miss Naomi Harbaugh, of Baltimore, visited Saturday and Sunday with her brother-in-law and sister, Mr. and Mrs. John M. Troxell.

Mr. and Mrs. Guy A. Baker and son, Charles, and Mr. and Mrs. Louis Orndorff and son, Michael Anthony, spent Sunday at the home of Mr. and Mrs. James Sanders, near Taneytown.

On Laetare Sunday one of St. Joseph's High school former students, Doris Bowers, of Taneytown, received the habit of the Daughters of the Sacred Heart.

Markovich became so obsessed by the idea, Whitney related, that he had a 156-page book printed in Slavic. It contained a picture of the dead son and explained, Markovich said, how Catholics "killed my boy." A copy of the paper-covered book was found on the man.

SCRIBE LISTS  
 MOST PAINFUL  
 US HEADACHES

By JAMES MARLOW

Washington, March 16 (AP)—If there's a headache, we have it here in the United States. Any kind of headache. Let's take them one at a time.

1. Russia is a big headache—probably the biggest we have. The Russians have grabbed almost all the tates of Eastern Europe. We want to stop them from grabbing any more. How do we do it?

Right now we're getting ready to try the Marshall Plan to help the 16 nations of Western Europe. We hope it will keep them away from the Communists. Will it work? To one knows.

Other Foreign Troubles

2. Greece is fighting Communists. Turkey is threatened by Russia. We're doing something there. We're giving military help to both of those countries. How much will it take? To one knows. Can we stop Russia that way? No one is sure.

3. There also is a Communist—which means Russian—problem in China. There, Chiang Kai-shek's forces are fighting Communist armies. What do we do about it?

We've given Chiang loans. We've let him buy some military goods here. We've sold him some airplanes. So far it hasn't stopped the Communists. Now some people are urging full-scale military aid.

Those are the foreign headaches. We have headaches at home, too. And some of them are connected with our foreign problems. Let's look at them.

Domestic Problems

1. Prices are high. Will they go higher? Maybe. Nobody is sure. Will we have a depression. Nobody knows. If we do, our foreign program will all apart. We wouldn't have money to help stop the Russians from taking over in other countries. Well, what do we do about it? Your answer is as good as anyone else's.

2. We're heading into a hot political campaign. President Truman's leadership is being hit from three sides: By Henry Wallace—who dislikes Mr. Truman's foreign policy; by Southern Democrats—who dislike his proposals to give negroes greater right; by Republicans—who say they can do things better.

The Russians probably are counting on election-year confusion here to help them push into Western Europe. But that's where they might be wrong.

We've had elections before in times of emergency without that kind of confusion.

COSTA RICA IS  
 CALM AS REBEL  
 FORT IS TAKEN

San Jose, Costa Rica, March 16 (AP)—Costa Rican troops have captured the stronghold of Rebel Leader Jose Figueres, the government said today. The country is completely calm, a communique added, and the government has everything under control.

The captured rebel stronghold was identified as San Cristobal, below Cartago, which is 45 miles south of here. The government also said one of Figueres' mountain ranches was taken.

In addition to 160 prisoners, federal troops took 50,000 rounds of ammunition, six cases of dynamite, 300 hand grenades and a number of rifles, the government reported. The attack was preceded by bombing, the government said, but it did not elaborate.

One Death Reported

The government also reported capture of a clandestine radio transmitter in San Jose. It said it was in the offices of Agathon Lutz, a German National, and had been used to send messages to Figueres. Lutz and several persons in the offices were arrested.

The government reported only one death during the San Cristobal fighting. Open revolt flared in this Central American Republic Saturday after President Teodoro Picado Michal-ki declared martial law.

Tension has been high, however, since March 1, when Congress annulled the presidential election of Opposition Leader Otilio Ulate Blanco.

San Jose is almost isolated, with 15 per cent of its power plants down up. The capital's economic life is paralyzed. Rural troops brought in by airplane yesterday patrol the streets.

Britain's Meat Ration Cut

London, March 16 (AP)—Britain's meager fresh meat ration was cut some more today. Effective next Sunday, the food ministry announced, the present ration of fresh meat worth a shilling (20 cents) a week will be trimmed to 10 pence (16 cents) worth of fresh meat and twopence (32 cents) worth of canned corn beef.

A shilling now buys two small lamb chops or a minute bit of beef or steak which housewives piece out with fish or liver. The food ministry said the new cut was necessary to conserve dwindling cattle and sheep herds.

Chapter 18

"Fortune cleared out of here as soon as Framingham told him he was through," Harold Moore told Eddie Gale and Carolyn as they walked into his office at the zoo. He pointed to Fortune's rooftop desk, its drawers half-open and empty. "The trouble is, he took all the bills and records with him."

"How can you operate the zoo without them?" Carolyn asked anxiously.

"I know how much it should cost, figuring the kinds and number of animals from past experience," the zoo director said. "But there's no telling what to expect—the way Fortune handled things!" He looked decidedly worried. "The worst of it is, I've just learned there's only a day's supply of meat in the refrigerator room."

"Do you know who he bought the meat from?" Gale asked.

"Sure—Harcus and Smith; I guess they're the only company in Lakeport that handles horsemeat. I tried to get an estimate on the cost by phone, but they say I'll have to come to their office for it."

"Doesn't that sound fishy to you?" Gale inquired with a frown.

"Not necessarily," Moore said slowly. "I'll be able to tell after I've talked to them this afternoon."

Eddie picked up his camera box, waved casually to Moore and walked toward the sea lion pool with Carolyn to make pictures for a feature on the lively aquatic family.

"Now there's a real husband and father," Eddie remarked as he focused his camera on the sleek-coated bull sea lion, basking on a concrete slab in the sunshine while the cow and two calves cavorted in the water. "Look at the way he supervises the family activities!"

"A typical male, if you ask me," Carolyn retorted. "He lolls around while the little woman teaches the kids to swim."

"Somebody's got to uphold the family dignity," he bantered. "Besides, the old man is just an nuisance around the nursery."

"You need the education of a good wife to knock those naive notions out of your bachelor head."

"Is that a suggestion—or a proposal?"

"It's a suggestion," she replied evasively, adding with a grin: "A suggestion that you stick to these pictures; we've got to get this stuff to the papers tomorrow."

"Business—always business!" he muttered with a comic display of impatience.

"Fortune's suit for re-instatement is the only one I'm thinking about now," she said. "Maybe you better put that suit of yours back in the cedar chest."

Undiscouraged by her jaunty rebuffs, Eddie returned to the sea lion assignment reflecting happily that as long as she bothered to answer him, the cause was not lost.

When Carolyn returned to the zoo at noon the next day, she found the effects of Fortune's suit more drastic than she had anticipated. She opened the door of the main animal building to be greeted with a ringing bedlam of roars, growls and snarls!

"What in Heaven's name has happened?" Carolyn wondered. The whole menagerie sounds like it's gone mad! Despite the evident fact that all the animals were safely in their cages, Carolyn trembled as she walked past a gauntlet of fear-some growls and savage sounds, hastening to Moore's office.

She closed the heavy door behind her, but the noise of the animals drowned out her greeting to the zoo director.

"They haven't been fed," the director shouted to make himself audible. "I couldn't get any meat for the big cats yesterday, and they're going wild."

"What happened to Harcus and Smith?" Carolyn yelled back.

"Couldn't make a deal! They wanted a kick-back."

"A what?" Carolyn asked, straining to hear.

"A kickback!" he shouted again. "They always gave Fortune a bill for twice the real cost—then split the graft fifty-fifty with him. I wouldn't play ball on that basis."

"I should say not!" Carolyn answered loudly. "But where can you get meat for the animals?"

"The nearest dealer is 75 miles away; I've placed the order, but he can't deliver until tomorrow. I can't send any of the keepers with the animals in such an ugly mood—it would be too dangerous."

"Have you got a truck?"

"Sure—but there's nobody to drive it; the insurance is no good unless it's driven by a zoo employee. Framingham gave a very positive order on that."

"Have you called him?" Carolyn yelled against the din.

"Out of town!" Moore hollered. "Then give me the keys to that truck—I'm about to carry the meatball to Garcia," Carolyn yelled.

Moore protested briefly, then he handed her the keys with a broad grin.

Carolyn climbed into the panel delivery truck, similar to one she had driven for the Lakeport Red Cross on hospital welfare errands, and whirled out of the zoo driveway in a shower of clinders. On the open highway, she kept her foot trading heavily on the accelerator while the light truck bounced over the bumpy concrete. It was 2 p.m. when she reached the meat dealer's office and watched while four men loaded the heavy cuts of horsemeat

into the truck. A half-hour later, she raced back to Lakeport with the accelerator pressed tight against the floor; the loaded truck, ballasted by the meat cargo, held the road unflinchingly.

She pulled to a quick stop outside Moore's office at a few minutes after 4 o'clock, noting as she ran inside that the animals were making a more deafening uproar than before. She attempted to speak, failed, and then scribbled on a slip of paper:

"The meat's outside," it read. "But I've shouted myself speechless!"

ABANDONED CAR  
 HELD AS CLUE  
 IN ARM MYSTERY

Hagerstown, Md., March 16 (AP)—An abandoned automobile was held by the sheriff's office here today in connection with the case of a woman's severed forearm found near York, Pa.

Deputy Sheriff L. R. Isanogle said a green 1933 sedan bearing New Jersey license tags was left at a garage here by two young men who "seemed in a big hurry." He said authorities from York would look at it today.

Pennsylvania police have been combing the countryside near York since the arm was found Saturday. Earlier police had received reports of a green automobile whose occupants had asked directions to a nearby girls' camp which is not in use at this time of year.

Left In Hurry

Isanogle said George Miller, owner of a garage and gasoline station here, told him that two young men had purchased gas on Friday, but abandoned the car when it refused to start. They left on foot, saying they would return for it in about three weeks.

Isanogle said Miller told him that one of the men kept saying, "Come on, come on. We've got to get away."

A search of the car turned up a pair of baby shoes and a partly filled bottle of milk, Isanogle disclosed. He said the rear seat was "all in an uproar," as if there had been some commotion.

Isanogle said Miller telephoned him last night after reading newspaper reports of the arm. A detailed description of the car's occupants was not available.

Dr. Lewis C. Pusch, pathologist at the York hospital, said the arm "looked as if it had been snapped off after death."

He said the victim had apparently been dead for several days. The victim is believed to have been a woman in her 30's.

TRUMAN WILL  
 GIVE CONGRESS  
 CRISIS REPORT

By JACK BELL

Washington, March 16 (AP)—A troubled Congress awaits President Truman's report tomorrow on world conditions amid speculation of stepped-up Russian pressure on non-Communist Europe.

The chief executive kept his own counsel. He did not say what caused his sudden decision to address a joint session of the Senate and House at 12:30 p. m. (EST) on St. Patrick's Day.

The White House simply announced that Mr. Truman will discuss the "foreign situation."

There was no advance indication of what—if any—steps he might suggest to cope with what Secretary of State Marshall has called a "great crisis" and a "fateful" hour in world affairs.

Much Speculation

But without any hint of what the President has to tell them, lawmakers generally directed their thinking along these lines:

1. There may be new Soviet expansion plans—possibly directed at pushing past Finland toward the Scandinavian countries.

2. These may involve a Russian gesture toward defense pacts with Norway, Sweden and Denmark—the sort of treaty Finland is in the process of being forced to swallow.

3. If any such moves should prove successful, they might help swing the April 18 Italian election of the Communists.

4. After Italy, whatever the outcome there, the Soviets may turn their attention anew to Turkey.

Give Notice to Italy

Whether the President would even go into such matters remains unknown. But from across the world and at home came some confirmation that events are moving along these lines.

The Swedish defense staff was said in Stockholm dispatches to have asked King Gustav V for measures to strengthen that country's defenses. The staff stressed "the increased danger of war."

And the State department here served notice on the Italian people that they won't get a nickel under the Marshall plan if that country goes Communist.

The Chief Executive used a similar appearance before Congress a year ago to outline his "Truman Doctrine" of American aid for Communist-threatened nations.

Wheels Start Turning

The Senate Foreign Relations committee resumes hearings on a \$275,000,000 Greek-Turkish Military fund today. The issue also is before the House Foreign Affairs group, which has announced plans to write the military assistance project into a separate section of its Marshall plan bill.

That \$5,300,000,000 measure already passed by the Senate also appeared certain to bring a Presidential plea for swift House action.

In addition to foreign assistance measures, Mr. Truman also is widely expected to press again for Congressional action on universal military training.

In fact the Senate Armed Services committee postponed from today until Wednesday afternoon—after the President's talk—the start of its UMT hearings.

TO CHARGE DRIVER

Bethlehem, Pa., March 16 (AP)—A charge of involuntary manslaughter will be placed against a Salisbury, N. C., truck driver in the death of two persons last Friday, Police Chief Edward J. Brogan reports. The driver, Russel Day, lost control of the vehicle. It crashed into three buildings killing Mrs. Catherine Stecker and her daughter, Sandra Kay.

Hanover Firms Get  
 Pollution Notices

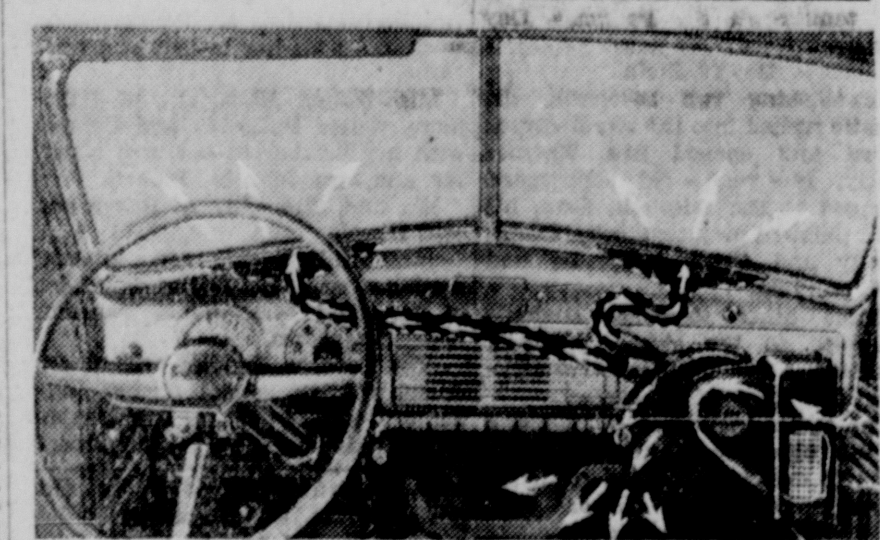

Harrisburg, March 16 (AP)—The State Sanitary Water Board issued notices to two Hanover industries to abate stream pollution in line with the state's clean streams program. The board said it had ordered the Hanover Wire Cloth Co., and the

Keystone Wire Cloth Co., to either stop pollution or prepare plans for waste treatment works.

In another notice yesterday, the board ordered five operators of coal concerns to appear at a hearing Thursday to explain their failure to make "satisfactory progress" in withholding silt from the state's waterways.

light, some carried. Demand very light. Wholesale selling prices per pound in Baltimore:

ROASTERS (including pullets)—45c. Poultry—Few carryovers, 30c. Eggs—(Colony) 16c-18c; light weights (12horns) too few sales to quote.

## Baltimore Livestock

CATTLE—The lightest Monday cattle run on the Baltimore market in three weeks met a fairly good demand today and moved to the sales at generally strong prices. Supplies included the equivalent of about 15 loads of steers, three loads of which were in stocker and feeder grades. Balance of the receipts were mainly cows.

Local buying demand was augmented, to some extent at least, by outside orders and slaughter steers cleared on a fairly steady to 25c. higher basis. Spots were more than 25c. higher than last Thursday. Best demand was noted on kinds weighing less than 1,000 pounds. The run was made up largely of average-medium to average-good grades that cleared in a range of \$25-26.75. A few small lots of low-medium grades dropped to around \$20. Nothing choice was included in the receipts.

Heifer receipts were very light and consisted mostly of low-medium to low-good grades in small bunches. Prices were about in line with last Thursday and most of the run brought \$17-23.

Good beef cows showed little net price change but other grades cleared on a 25-30c. spots more, higher basis. Good beef cows, graded to \$22.50-23.50, common and medium brought \$18-21, canners and cutters, \$18-18. There was a fair showing of light canners at \$14.50 and odd shelly kinds dropped to \$12 or below.

Bulls met a good demand at fully steady prices. Odd low-grade, yearling type beef bulls scored \$23.50; good sausage offerings brought \$21-23 in most cases and common and medium grades moved at \$18-20.50. Odd head lightweight cotto

bulls dropped to \$15.

Around three loads of good and low-choice stocker and feeder steers returned to the country at \$21.50-26. The supply averaged 75-100 pounds and sold on a steady basis compared with late last week.

CALVES—Dealings in the calf department were only moderately active but prices were mostly steady with last Friday. More good and choice

## HOUSE MAPPING OFFENSIVE ON TRUMAN ORDER

Washington, March 16 (AP)—A House committee mapped a new offensive today in the battle over government investigations.

Rep. McDowell (R.-Pa.) of the un-American activities committee told reporters the group is preparing a formal reply to President Truman's order putting a tight clamp on loyalty information.

The President instructed executive agencies yesterday not to respond to Congressional demands for this data about federal employees until he has a chance to look over the requests. He cited actions of past presidents to support his move.

Shield for Jobholders

McDowell said the President's action might give technical protection to dangerous persons now in gov-

ernment jobs. Prominent Republican House members, and some Democrats added, agree it would take Congressional action to override the President's decision.

But, he added, "we agree that Congress should have the right to such information if we are to legislate on national security. The President's order leaves us no choice but to take action."

The conflict between Congress and the administration center around the case of Dr. Edward U. Condon, head of the national Bureau of Standards. He was charged by an un-American activities subcommittee with having associated knowingly or unknowingly with suspected Soviet spies.

The subcommittee quoted part of a letter from FBI Director J. Edgar Hoover regarding some of Condon's associations. Secretary of Commerce Harriman said his department's loyalty board had cleared Condon. He said other portions of the Hoover letter justified such a decision.

The subcommittee then asked for

## Weather Forecast

Extended forecast for the period, Wednesday March 17 through Sunday, March 21:

Eastern Pennsylvania, Eastern New York and Mid Atlantic States: Temperature will average about five degrees above normal south portion, and three degrees above normal north portion; cooler Wednesday and Thursday; warmer Friday and Saturday; snow flurries northern New York Wednesday, rain south portion and rain or snow north portion about Thursday and Sunday. Total precipitation one-half to two-thirds inch.

Western Pennsylvania, Ohio and West Virginia: Temperature will average about four degrees above normal; cooler Wednesday and Thursday; warmer Friday and Saturday, becoming cooler Sunday; rain about Thursday and Saturday. Total precipitation about three-quarters inch.

the complete letter, but Harriman refused to surrender it. In this he was backed up by the President.

McDowell said the full committee now is considering a Congressional resolution demanding the Hoover letter. A similar move was adopted to get information on commodity market speculators from Secretary of Agriculture Anderson.

Pottsville, Pa., March 16 (AP)—William Jefferson, 20, of Duncott, was killed yesterday in a premature dynamite blast while tapping a drill on a stripping operation for the Pennbrook construction company at near-by Minersville.

paratively few issues by the limited production facilities of the Bureau of Engraving and Printing. The program to which the Department is already committed will tax the facilities of the Bureau for some time to come.

"The Postmaster General further made the objection that—

"Special legislation is not required for the issuance of commemorative stamps, as the Postmaster General has such authority under existing law."

### Recommend Approval

"The committee has given due attention to the objections raised by the Post Office Department and notes particularly that the Department recognizes the importance of the 85th anniversary of this memorable occasion and feels that the mechanical difficulties are to be far outweighed by the desire of the citizens to join through a central department of the Government in a visual and universal medium for recognizing the historical value of recalling the part played in American history by the recognized turning point in the war of the 1860's.

"The committee therefore recommends that the resolution, without amendment, be approved."

### Committee Members

Senator Edward T. Tamm, of Minnesota, headed the committee which made the favorable report. He is a member of the Post Office and Civil Service committee of which Senator William Langer, of North Dakota, is chairman.

Other members of the committee include: Senators C. Douglas Buck, Delaware; Ralph E. Flanders, Vermont; Raymond E. Baldwin, Connecticut; John J. Williams, Delaware; Zales N. Ecton, Montana; Dennis Chavez, New Mexico; Kenneth McKellar, Tennessee; Olin D. Johnson, South Carolina; William B. Unstead, North Carolina; and Herbert R. O'Connor, Maryland.

## State Damage To Fruit Held Light

Harrisburg, March 16 (AP)—Low temperatures in February caused some damage to fruit buds, but 1948 crops were not materially damaged, the state agriculture department reported today. The department issued the report after studying a federal-state survey of general farm conditions in Pennsylvania as of March 1.

Warm weather in mid-February melted the long standing snow cover and removed much ground frost, the department said. Fields on March 1 were mostly bare and stands of grass and winter grain were subject to damage from alternate freezing and thawing.

The department said tapping of sugar maples was general in some localities. A short run of sap was obtained in Somerset county toward the end of the month.

## HEART DRIVE

(Continued from Page 1)

\$25 each from the local Elks and Eagles, \$10 each from the Lions and Attorney Donald M. Swope. A number of other contributions ranging from \$1 to \$5 were listed.

Doctor Gifford thanked all those who had donated and said he was well pleased with the amount collected. "Every cent given was truly volunteered. No personal solicitation was made and every donation was made because people were personally interested," Doctor Gifford pointed out.

"Next year we hope to have a more formal campaign, for the money is desperately needed. The sum raised here will be sent to the American Heart Association, Inc., in New York. That Association, made up of the leading heart specialists in the United States will use the money to do something about heart disease—which is the number one killer of adults and children in the United States.

Mark Birthdays

"While the amount collected here may seem small, added to similar donations made in other sections of the country it should produce a large sum, much larger than ever before available, for research into diseases of the heart."

Fifty-six attended the meeting of Rotary at which the president, Dr. C. Harold Johnson, presided. Galen Keeney, high school member of Rotary, invited the group to attend the production of "Angel Street" which is to be produced by the senior class at the high school.

The birthdays of Charles W. Myers, Dr. Henry W. A. Hanson, Dr. Rasmus Saby were noted. A motion picture, "Land of 10,000 Islands" produced by the state of Minnesota was shown by Joseph E. Codori.

into them, the group reported.

Doctor Putman and Mrs. Saby discussed the situation with the Commissioners, both reported. They added that they found the Commissioners "very cooperative and interested."

The Commissioners have set aside \$10,000 this year for repairs to the county home, it was reported, although full details of how the money will be spent have not as yet been announced.

name to appear second. In most cases there was little difference whether a candidate's name appeared first or last, with only a few district committee contests scheduled for the primary.

Mahlon P. Hartzell, Sr., drew first spot on the ticket for Republican county committeeman from Gettysburg First ward, second precinct, one of the few districts in which there are more candidates than there are offices to fill. Three Republican committeemen or women will be named from each district.

The order in which the candidates will appear on the ballot in that precinct are, Mahlon P. Hartzell, Caroline L. Snyder, Miriam T. Daley and Samuel Weiser.

### Other Drawings

Deputy Sheriff John C. Shearer drew the top spot in the First ward, first precinct, where the candidates will be listed in this order for GOP county committeeman: John C. Shearer, E. Blanche Minter, Myrtle Shriver, Ruth E. Jacobs.

In Fairfield the Republican committee candidates will be in this order: Roger Myers, George E. McGlaughlin, J. B. Waddle, Earl B. Hartzell.

The candidate order for Republican county committeeman for Hamilton township will be John G. Myers, Leslie E. Reinecker, George T. Haer and William L. Eisenhart; and in York Springs, N. R. Criswell, Walter A. Wolf, Lewis E. Potts and Clara Hardman.
